

CONSOLIDATED APPEAL 2008 UGANDA: CCCM CLUSTER 2ND QUARTER PROGRESS CHART

Camp Phase out in Lango © UNHCR / E. Denholm

The progress chart operates in two levels: The text in each box expresses the indicators of the clusters and the colors show the trend, toward meeting the target by the end of 2008.

	ON TRACK: Target already met or expected to be met
	MINOR GAPS: Programming challenges and/or gaps in delaying progress in some areas
	MAJOR GAPS: Programming challenges and/or gaps in delaying progress in many areas
	CHALLENGE / UNABLE TO MEET THE TARGET: This target is not expected to be met
	INSUFFICIENT DATA: Unable to monitor or indicator not applicable for this quarter

In comparison to 2007, coverage of CCCM activities has increased more than 50% due to the full coverage in the Kitgum district and modest increase in Pader, Amuru and Gulu though the latter districts need further attention, especially in Pader as the population movement remains to be fluid (base on Lango experience, it can turn rapid return). One of the main challenges remains to be 1) limited funding for the camp phase out activities, 2) general lack of development agents in the area of return, and 3) support for EVIs/PSNs.

CCCM/Protection Cluster requested additional CERF funding to fill in those gaps. In addition, various efforts were made during this quarter to ensure the understanding of durable solutions for IDPs in conjunction with camp closure which positively reflected in the district action plan developed during the workshops held in Alochi districts. In addition, more creative ways to involve other partners are being sougthed out such as mobile camp management and phase out team for the last half of 2008.

CAP 2008 GOAL: SAVING LIVES by providing emergency assistance where required and ensuring rapid response capacity in emergency situations

CLUSTER	TARGET INDICATOR					
CCCM	Number of camps where the system of Camp Coordination and Camp Management is established	Number of partnerships formed in areas where there is no camp management	Number of humanitarian gaps identified and reported to the relevant clusters/actors	Number of responses to humanitarian gaps which are addressed within reasonable timeframe agreed with relevant clusters	Number of standardised tools agreed upon and utilised for CCCM in Uganda	Number of trainings conducted

CAP 2008 GOAL: FACILITATING RECOVERY by promoting durable solution and re-establishment of livelihoods, including disaster preparedness measures

CLUSTER	TARGET INDICATOR
CCCM	Number of closed camps transformed into viable communities
