**Notes:**

- Water source information presented in this map is based on available water points received during Nov08 - Dec09 from DWO and district partners (mainly IRC & FAO). Therefore, water source coverage and operational status level change over time. For updated info, please contact directly to DWO/partners in respective district.
- Approximate area falls inside 1km or 2km accessibility zones are treated as accessible & falls outside are treated as not accessible. Accessibility buffers and ratio of area access within buffers are derived only for functional water points.
