Health Service Accessibility Index Rank

Covered by Health Facilities

- 75 - 100%
- 50 - 75%
- 20 - 50%
- <=20%

Ratio of Populated Area

Notes:

1. Ratio of populated area covered by operational Health Facilities within a sub-county is calculated by using national standards (5 km radius distance which is equivalent to 78.57 sq.km area using formula $A = \text{Pie} * R * R$). Approximate area falls inside 5km zones are treated as accessible & falls outside are treated as not accessible. Accessibility is based on aerial distance. Assumed that people travel most direct route in plain area.

2. Health coverage information presented in this map is based on available locations of operational Health Centres from the District. It should be noted that ratio of coverage change over time. For updated health information, please contact the respective DHO & Health Cluster Leads directly.

Data Sources:

- Admin Boundaries - UBOS 2006
