Notes:

- Total number of parish touched by 2.5 km access buffers, and approximate ratio of accessible populated area within sub-county are derived by using GIS technique. 2.5 km radius circle is equivalent to 19.643 sq.km area (using formula A = Pie*R*R).
- Approximate area falls inside 2.5 km accessibility zones are treated as accessible & falls outside are treated as no accessible.
- Accessibility is based on aerial distance. Assumed that people travel most direct route in plain area.
- Pie size is graduated by total populated area (excluded water body, game reserve, range land, national park, etc) of sub-County.
- Accessibility presented in this map is based on available location of Schools from the District. Therefore, accessibility level change over time. For updated school information, please contact directly to DEO or Ministry of Education and Sports.
